Republican Nomination.

FOR GOVERNOR,

LOT M. MORRILL

The Republican State Convention.

The day was generally a favorable and an auspicious one for the assembling of the Republican Convention. Bright sunshine, alternating with grateful shade, and exhilarating breezes and with nature in its fullest vegetation and most attractive garb, constituted a summer's day, whose influences were in harmony with the great cause of human freedom and human happiness for the advancement of which the Republican party was formed and will be maintained by the people.

In the morning the great flag of the Republican Association of Bangor, representing the American Union sustained by the Goddess of *Liberty*, was again thrown to the breeze, and waved from its lofty position over West Market Square—attracting the attention and admiration of all as a most beautiful object for the eye to rest upon, and as an appropriate illustration of the principles and objects of the Republican party.

The Convention was one of the largest and most enthusiastic that has ever been held in the State,—which, under the circumstances of quietness and absence of excitement which now prevail in the political world, is a matter of surprise and gratification. All parts of the State were well represented, and without any contest for candidates, the staunch friends of freedom came up in full and solid ranks to the Convention, and manifested a zeal and ardor in the Republican cause which was not even exceeded in the fervid campaign of last year. The bone and muscle, and the intelligence and patriotism of the State was there fully represented. We have never seen a Convention embracing a greater number of earnest and devoted and able men.

For an account of the doings of the Convention, we refer to the report which we have published elsewhere in this paper

The nomination made by this Convention is one which the people will receive as eminently fit to be made. It is in fact a spontaneous nomination by the people. The name of Lot M Morrill appears to have arisen in the minds of the people in every quarter of the State, as the man to be made the next Governor of Maine, and they have accordingly come up and given him the unanimous nomination of the Republican Convention. His name is very near to the hearts of the people as one of the most earnest, able and eloquent of the friends and advocates of freedom—and as one who boldly resisted the pro-slavery prochivities of the so called democratic party while he was still in that party, and thereby aroused the eternal enmity of the hunker leaders,—and as one also who in the Legislature of 1856, opposed and voted against (almost single-handed in his party,) the infamous outrage upon the Judiciary committed in the arbitrary removal of Judge Davis

We repeat that the nomination of Mr Morrill is one which will be most enthusiastically received by the Republican masses throughout the State—looking both to the ability and to the moral and political fitness of the man—That he is destined to be triumphantly elected even the most desperate of the opposition hardly dare to question

The Resolutions of the Convention were passed with the same unanimity with which the nomination was made—and will recommend themselves as presenting a platform upon which every friend of freedom can stand, and work heartily and zealously in the great cause It was a wise and prudent disposition of the liquor question, and one which will redound to the real interests of the temperance cause, to declare that it should be divorced entirely from party politics, and that any liquor bill which may hereafter be framed, should be thus framed independently of parties, and submitted to the people at a separate election. For the rest the Convention simply declares an opinion—not as a political or party opinion—that the law of 1856 has not accomplished what its friends declared that it would do, viz: suppress the evils of intemperance—and that, (in the language of the Democratic State Convention of 1855,) "a suitable prohibitory-law," would in our opinion, subserve that purpose better—leaving that question, however, entirely in the hands of the people for settlement, and not setting up any opinion upon that question as a test of fealty to the Republican party.

We hope to be able, in a day or two, to give a sketch of some of the speeches at the Convention. Those of Hon Israel Washburn, Jr. and of Senator Hamlin, were especially powerful and spirit stirring, upon the great themes of Republicanism and its relation to the cause of American Liberty and Human Rights The speakers were imbued with and responded to the unbounded enthusiasm and confidence when animated the Convention, in view of the ultimate success of the Republican party in the Union, as a national party. Mr Washburn said the Republican party is destined to rule the fortunes and guide the destinies of this Union. It has been inaugurated upon the true idea of the Republic, and the time has come for a party to be thus formed to uphold the foundation principles of our confederation. It has already said to the slave power of the Union, with calm and terrible earnestness, "Thus far! No farther!"—and has been recognized by the Southern leaders in the U. S. Senate as the only existing national party of opposition. Its course is onward.

A Pennsylvania judge has decided that a hotel is a tavern, and a landlord is obliged to take in anybody that comes along and asks for accommodations, however suspicious may be his appearances, and the landlord has no right to turn anybody away whether he could pay for lodgings or not. His honor said this was clearly the object of the law. Rather hard for the landlords, that.

AFTERNOON SESSION.

The Committee on Credentials made a report of a list of Delegates as follows:

Aroostook,	6
Androscoggin,	46
Cumberland,	99
Franklin,	21
Hancock,	49
Lincoln,	66
Oxford,	45

The report was accepted.

[A full list of delegates will be published to-morrow.]

On motion, a committee, consisting of Messrs. Vinton, of Gray; Banks, of Biddeford; Copp, of Liberty; Littlefield, of Andover; Morrison, of Farmington; Adams, of Cherryfield; Perry, of Ellsworth; Winslow, of Houlton; Moore, of Augusta; Brown, of Solon; Perham, of Woodstock; Lowell, of Sangerville; Weed, of Oldtown; Hewitt, of Bath; Kennedy, of Warren, were appointed a committee to receive, sort and count the votes for a candidate for Governor.

Hon. J. J. Perry arose, and solicited the attention of the Convention. He stated that he had, towards the end of the 34th session of Congress, received many communications soliciting him to permit his name to be used for candidate for Governor before this Convention. He had also been called upon since his return home, and to-day several delegations had made known to him that they were under instructions to vote for him for that office, unless he positively declined. He desired no greater honor than to act in the party with the rank and file, and therefore declined now, as he uniformly had when spoken to on the subject, to be considered as a candidate.

Mr. Hallowell of Bangor, arose and said:

Before the Convention proceed to ballot for a candidate for Governor of the State, I deem it proper to call attention to the fact that the very general satisfaction which the present Executive has given, in his administration of public affairs, may well point out Governor Williams as the candidate of the Republican party.

Under these circumstances, members of the Convention, unless apprised of his wishes, might very reasonably be led to cast their votes in his favor. In order, therefore, that the case may be fully understood, I will state that I have been authorized by Gov. Williams to say it would be most agreeable to his wishes that his name should not be made use of as candidate for Governor. The lasting welfare of the Republican cause is, above all other things, his earnest desire. He has no feelings of pride or ambition to be wounded, and he will continue to work with the same zeal and ability, which has heretofore distinguished his course in that cause which is so dear to all our hearts.

The Committee then proceeded to receive the votes for a candidate for Governor.

While they were attending to the duty of counting the votes, Hon. Israel Washburn, Jr., was called to the stand, and made some most eloquent and spirit-stirring remarks upon the great question of freedom as a national institution, and upon the history and encouraging prospects of the Republican party.

After Mr. Washburn had concluded, the committee appointed to receive, sort, and count the ballots for a candidate for Governor, reported that the whole number of votes was 601

Necessary to a choice	301

The report was accepted, and Hon. Lot M. Morrill was declared duly and unanimously nominated as the candidate of the Republican party for Governor of Maine

The nomination was received with long and loud applause.

Hon. Hannibal Hamlin was then called to the platform, and addressed the Convention with great power and effect.

On motion of Mr. Abbott of Norridgewock,

Ordered, That the President of this Convention inform the Hon. Lot M. Morrill, that he has been unanimously selected by this Convention of *the* candidate for the next Governor of Maine; and to communicate to him the cordial wish and the determination of the Republican party of Maine to elect him by a triumphant majority.

Hon. Warren H. Vinton was then called upon and addressed the Convention in an eloquent manner.

The committee on resolutions, through its chairman James S. Pike, Esq, then made report of the following series of resolutions, which were adopted unanimously:

Resolved, That the tendencies of the times, as manifested in the encroachments of the federal power through the recent action of the Executive and Judicial branches of the national government, admonish the people of the free States to the exercise of a more jealous regard to their rights, and urge to the adoption of measures by them looking to a more determined vindication of State Sovereignty.

Resolved, That the aristocratic and ultra federal views of the party in power at Washington are alarming. The open denial of the doctrines of the Declaration of Independence, as heretofore understood, and the false construction of the federal Constitution, both plainly set forth in a recent judgment of the U. S. Supreme Court, and intended, as we believe, for an authoritative exposition of the sentiments of that party, point to a serious change in the theory and administration of the national government, threatening alike to the personal liberty of the citizen and the permanence of popular rule.

Resolved, That the fundamental aim of the Republican party is the assertion of the true principles and just interpretation of the federal Constitution, effectual opposition to the modern heresy that freedom is no better than slavery, the maintenance of the rights, dignity, and sovereignty of the States, the defence of the personal liberty of the citizen and the rights and interests of free labor, and the vindication of the doctrines of the Declaration of Independence and the essential rights of men.

Resolved, That in the furtherance of these general views, we will fulfil our duties under that Constitution faithfully, in the spirit in which they were prescribed, but we refuse obedience to new tests and modern novelties of interpretation, which we believe inaugurate, and are intended to accomplish, a revolution in the character of that great and wise instrument, and of the government.

Resolved, That what is called the democratic party of to-day, in the free States, could not survive a single battle in its present position, but for the lure and rewards of federal patronage. That this patronage being thus the great corruptor of our politics, and the principal agent in retaining vitality in the ranks of the pro-slavery party in the free States, is an evil of vast and growing magnitude, which demands abridgement by bringing, as far as practicable, all federal offices within the reach of the people by popular election.

Resolved, That the natural increase of the white race on this continent demands the widest possible area for its expansion, and thus requires the confinement of the degrading character and influence of African slavery to the narrowest limits. That the attempt of the slaveholders to circumscribe the bounderies of free labor, by usurping free territory for the spread of Negro Slavery, is an as infringement of the rights of that labor, which must provoke invitable resentment and retribution, fatal to the peace of the country. That those who contend for the unlimited extension of a relation so odious and aggressive in its character, are themselves the arch-agitators of the public peace, whose dangerous machinations can only be thwarted by a fixed limitation to this pernicious institution.

Resolved, That the country is weary of the stereotyped alarms sought to be spread in relation to the danger of a dissolution of the federal Union. We deprecate the constant agitation of this topic. What most concerns the people of the free states is to see that the Union established by the founders of the Republic is preserved as it was made, in its vital essence and living reality, and to declare that they will stand by the Union and Constitution thus formed, and will resist all attempts to pervert and overthrow them, whether coming from federal legislation or judicial interpretation.

Resolved, That the License Liquor Law passed by the Legislature of 1856 is inadequate to the suppression of the evils of intemperance, and that the public welfare can best be secured by a "suitable prohibitory law" and believing that all laws should be not only just and constitutional but permanent in their character and effect, and for the purpose of removing this great moral question from the arena of party politics, we recommend that any enactment designed to prohibit the sale of intoxicating liquors be submitted to the people upon some day other than that of our annual State election.

Gen. Samuel Fessenden then addressed the Convention.

On motion of Jedediah Jewett, Esq., of Portland,

Resolved, That Hon. Joseph H. Williams, the present Executive of this State, has discharged the duties of his office to the acceptance of a large majority of his fellow-citizens and to the entire approval of the Republicans of Maine.

On motion of Mr L. O. Cowan, of Biddeford,

Resolved, That we will unanimously sustain the Hon. Lot M. Morrill, the candidate nominated by this Convention, for the office of Governor, and in behalf of the Republicans of this State, we pledge to him such a vote as will not only elect him most triumphantly, but will also show to our sister States, that Maine takes no step backward in her onward march to secure Republican liberty.

This resolve being seconded by Hon. N. Farwell of Rokeland, in a few eloquent remarks, was passed unanimously.

On motion of Mr. Bartlett of Bangor, the thanks of the Convention were presented to the Hon. Noah Smith, Jr., for the able and impartial manner in which he has discharged the duties of presiding officer.

In response to a call, John A. Poor, Esq., of Portland, addressed the Convention.

Voted, That the proceedings of the Convention be published in the Republican papers of the State. Adjourned.

THE EPISCOPAL CHURCH IN THE UNITED STATES—The Journal of the General Convention of 1856 has just been published. It is a document extending through 526 pages, giving statements in detail of the condition of the various dioceses in the United States From the summary of statistics the following is extracted:

Clergymen in 31 dioceses, 1,328; communicants, 119,650; baptisms in 30 dioceses, 70,527 parishes in 29 dioceses, 1,825; Sunday school scholars in 25 dioceses, 82,014; Sunday school teachers in 20 dioceses 9,236. The various contributions for church objects, during the three Convention years reach the sum of $2,402,835. In 1853 there were reported 105,136 communicants, 48,157 baptisms, 1,150 parishes, 62 376 Sunday school scholars, and 5,531 teachers.

The reports of the timber and deal trade at Liverpool are not very favorable to shippers from the Provinces. Mackay's circular, dated Liverpool, June 5, says that 34 cargoes had arrived up to that date in vessels measuring 22,600 tons, against 16 arrivals last year to same date, of 12,669 tons. In addition to this the high rates for money which ruled, had affected the business of the country, and consequently the demand for lumber. Prices were of course depreciated. Deals had sold for £8 8s per standard for better than seconds, and £7 6s for fourths.

A CURIOUS FACT.—A correspondent of the N. Y. Evening Post, speaking of the present State Constitution of Kentucky, relates the following incident connected with its adoption in 1799. He says:—

It will be remembered that in the convention which amended the original constitution of 1790, a gradual emancipation clause was lost by one vote. General Breckenbridge, the grandfather of the Vice President, was a member of that Convention and voted against the proposition.

The General represented Mr. Clay's old district, and was elected in opposition to him by a majority of about five votes.

By the constitution under which that election was held, free negroes owning a certain amount of freehold property were allowed to vote. There were in one portion of the district some six or seven free negro voters, all of whom cast their suffrages for Gen. Breckenbridge; and thus, it may be said with truth, that the slaves of Kentucky at the present day owe their bondage to the mistaken votes of these free negroes. For it is well known that Mr. Clay, who ran against General Breckenbridge, was at that time an emancipationist, and that the contest was conducted on this issue.

The above reminiscence shows another thing, by the way; viz, that at that early period, in our country's history, "persons of African blood" were thought to be eligible to citizenship, even as slaveholding Kentucky—and that our forefathers did not consider the whole African race as being destitute of any "rights which the white man was bound to respect."

LOCAL AND MAINE NEWS.

SINGING FOR FREEDOM.—Those deservedly popular performers, the Slave Singers, will give one of their rich and entertaining concerts at Norombega Hall this evening. They are singing in one hundred cities in the North for the purpose of purchasing their freedom.—Wherever they have performed they have been spoken of by the press in the highest terms. They will undoubtedly be well patronized.

DELEGATES TO THE DEMOCRATIC STATE CONVENTION. The following is a list of the delegates, to the Democratic State Convention, chosen at the caucus last evening. The ticket is understood to be an anti-Custom-House ticket, and was chosen by a large majority:—Charles Stetson, H. Strickland, A. M. Roberts, Michael Boyce, James Walker, E. W. Flagg, Nathan Weston, Jr., John S. Ricker, A. L. Simpson, M. Pearson, A. Hayford,

A house on Birch Street caught fire yesterday, but was extinguished without the aid of the engines. The boys however had a long run. We understand it was a case of spontaneous combustion, from some oily rags used to fill up crevices in the building.

The Trustees of the Maine State Agricultural Society have received and accepted an offer of Messrs. Hinckley & Egery, of this city, to place an engine of power sufficient to propel the machinery to be exhibited at our State Fair, at their disposal.

YORK AND CUMBERLAND RAILROAD.—The Argus announces that "arrangements which have been progressing in reference to the York and Cumberland Railroad matters for some weeks past, have been so far completed as to warrant the contractors, Messrs. Wood and Myers, in commencing operations on the road, which they will do on Monday next."

LOSS AT SEA. Schooner Empress, French, from Philadelphia for Bangor, with a corgo of coal, struck on a ledge near Herring Gut, in a thick fog, and has become a total loss, vessel and cargo. Some of the sails and rigging saved. She was owned in Prospect, where she was built last year. Valued at $6,000—uninsured except $1,200.

FOR THE DEMOCRATIC CONVENTION. The steamer Daniel Webster will carry delegates to the Democratic Convention in Portland, and return them from it at half the regular fare.

☞ For marine dissasters at White Head, see marine intelligence.

SHIPBUILDING AT THE EAST. In Washington County, west of Machias, as we learn from the *Union*, there are eight vessels only in course of construction this year,—about one-half the number usually built in that locality. At Indian River, Messrs. Crowley, McKenzie and others have a brig of 240 tons on the stocks. At Addison, William Nash & Sons are building a vessel of considerable size. In Columbia, Levi B. Grace are putting up the frame for a 200 ton vessel. At Harrington, Mr. Z. Allen and others have a large vessel nearly completed; and Messrs. A. Nash and others have laid the keel for another. At Cherryfield, Messrs. Kingsley & Smith are building a good sized vessel; and Amos Dyer a large bark of 440 tons. At Millbridge, Ezekiel Dyer is building a vessel of 200 tons. Messrs Baker and others at Steuben, Knowles of Addison, Plummer of Harrington, and Dyer of Cherryfield, also contemplate commencing vessels this year.

MELANCHOLY DROWNING IN ELLSWORTH.—Last Sunday two young men, aged 16 and 20 years, only sons of Joshua Turtelotte, were drowned in Branch Pond. They went with others to look at some rafts in the Pond, when one of them jumped upon some loose logs and went under. The brother jumped after him and went under also. Their bodies were recovered in a short time but life was extinct.

BELFAST ARTILLERY. The roll of this fine company is now full; and its field pieces and equipage have been ordered from the State Arsenal. Adjutant General Webster has taken much interest in the formation of this energetic volunteer company in Belfast, as we learn from the *Age* of that city,—as well as in other parts of the State.

Among the list of patents granted for the week ending June 16th, we notice the following:

James Bridge, of Augusta, Me—Improved safety attachments for hatchways.

Peter Hines, of Kendall's Mills, Me.—Improvement in bedsteads.

THE NEW ORGAN. That splendid structure, the new Methodist Church, on Chestnut St., will be thrown open to-morrow evening, for the purpose of exhibiting the beauties and power of the new organ. George W. Warren, Esq., of Albany, the builder, will preside at the instrument, assisted by several resident organists.—*State of Maine.*

Augustus G. Robinson, and George H. Weeks, of this State, are among the recent graduates at West Point.

A canoe race by Penobscot Indians is to succeed the Regatta at Portland on the Fourth.

The Brunswick *Telegraph* says that Rev. M. Adams' peas blossomed on the 13th inst, and that upon comparison with the two previous years, he found they blossomed upon the same day each year.

A peddler's cart in the stable of the Fontine Hotel, Brunswick, was robbed of $200 worth of laces, velvets and dry goods, a few days since.

Buckaport was the first place in which a printing press was introduced in the Penobscot valley.

RASCALLY. On the night of the 18th inst., says the Maine Farmer, some scamp entered the bee yard of Mr. Jacob Tuttle, of East Newport, and by means of sulphur placed under his hives, destroyed swarms to the value of $50. It was a contemptible deed, and we hope the perpetrator may be detected and punished.

As the Express train from Montreal was coming through New Gloucester on Tuesday, a horse got upon the track and was torn to pieces by the train passing over him.

DROWNED.—Mr. Charles S. Downing, formerly of Somersworth, was drowned in California, in February last. He was at work with five other men on the bank of a creek, where he was thrown into the water by the caving of the bank. His remains had not been recovered at last accounts.

ACCIDENT.—On Wednesday of last week, a little boy, about six years of age, son of a Mrs. Brown, recently of East Machias, while at play on the deck of a vessel, lying at her wharf, in that place, fell into the hole, striking on his head and was badly injured.—*Machias Union.*

SUICIDE.—Mr. Nathan Buzzell of Canaan, committed suicide on Friday last, by hanging himself.—*Clarion*

General Items.

The Quebec Mercury says that an alarming disease prevails among the cattle in the parishes of La Beauce, on the south side of the St. Lawrence. Upwards of 1,500 animals, chiefly cows, have died.

In Marion county, Ohio, a few days ago, a man sued another for the rent of a house. On the trial, evidence was adduced that the house was haunted, and the jury decided that defendant by paid $15 as damages, instead of paying rent.

When the Irishman first tried peaches, he said he liked their flavor, but the seeds lay hard on his stomach.

The Princess Royal is to have $200,000 down and $40,000 a year, a dowry which is valued at the round sum of $1,000,000 This will support her and her Prussian husband in a very comfortable manner at Berlin, where their lodgings cost them nothing and the State pays for servants, &c.

Gen. Wool is reported as alarmingly ill, at Troy, N. Y.

GODEY'S LADY'S BOOK for July comes punctually to hand. The publisher is *always* punctual, and always comes up to his engagements and his promises,—whether in the matter of his exchanges or in the constant improvements which he undertakes in his magazine. The July number contains 100 pages matter—and 66 engravings, some of the most splendid character. The fashion plate contains seven figures more than has ever before been given in a single fashion plate in this country.

NO ADVANCES. The bark Honqua, which recently sailed from New York for Hong Kong, was the first vessel, according to the Advertiser, which has gone out of that port without paying advance wages to the seamen. She took out all told, eighteen men, every one of whom returning in the ship will receive a bonus of 10 per cent. upon the wages due to him at the end of the voyage. Comfortable clothing, equal to a suit for each man, was put on board. The men were of a respectable character, and all went sober and well provided.

HOW TO RAISE THE GRADE OF DOMESTICS.—The Cincinnati Gazette, in view of the unusual complaints of bad servants heard on every side, proposes to infuse a little of the spirit of emulation among them by the organization of associations of housekeepers, which shall offer annual premiums of considerable amount to the best domestic in the several departments, and to the one two or three in each department who shall have remained longest in the same family. The idea is a good one.

MANCHESTER SCALES. Some two years since the Manchester Scale Works, at Manchester, N. H., commenced the manufacture of the various patterns of counter, Platform, Hay, Coal and Railroad Track scales, starting upon the principle that an *imperfect Scale* is good for nothing, they wisely determined, with the aid of a sensible skull, perfected by many years experience, combined with carefully selected materials, to produce Scales of a very superior quality, not only in appearance but in all the important points of internal structure which make the perfect, reliable, standard Scale.

Their success has exceeded their most sanguine expectations, having received the first premiums at the State Fairs in Maine and New Hampshire, and wherever they have been exhibited, and what is still more important, is the *significant fact* that a discerning public, appreciating *fair* and *honorable competition* in a business hitherto somewhat a monopoly, has so generously aided the enterprise as to call for a large and continually increasing production, till their Scales are now in use, in all parts of the Union, the British Provinces, East and West Indies, and South America. The Manchester Scales wish to stand or fall upon their own merits, and they challenge comparison, not only in *appearance* but in *fact*, with any scales before the public

[Boston Journal.

The above named Scales are for sale by Messrs Butler & Co, who are the sole agents for Bangor and vicinity. Call and examine them.

THE COMET—A NEW THEORY.—A correspondent of the Alexandria (Va) Gazette, urges the theory that comets are the abode of departed spirits, and that at each time a comet approaches the earth, it absorbes a great number of ghosts, both good and evil. The good being purer and lighter, are soon thrown off and depart to a place of quiet and repose, but the wicked, being gross and heavy, require, like an old pipe, to be kept in the fire a long time before they are cleansed. He believes that the comet will hit somewhere near St. Louis, this month, and will stop long enough to take on a supply of passengers, the good will go in the saloon cars, and the sinners in the tender, as fuel. It it would only take Chicago in its course, a large supply of fuel might be obtained.—*Chicago Tribune.*

The Alabama Slaves performed to a crowded house last night. Town Hall was filled from top to bottom, and hundreds went away unable to gain an entrance. The "boys" really appear to be human beings, and seemed possessed with a considerable degree of intelligence. There is no humbug about them, They are genuine, full blooded darkies, and no white man can begin to compare with them in their delineation of negro character, and life on the plantation. If their success last night is any criterion to go by, they will soon raise the funds to free themselves from their present bonds.—*Hartford Daily Times.*

These minstrels will sing at Norombega Hall this (Friday) evening.

Radical Regenerator,

FOR SEMINAL WEAKNESS,

In all its forms, as Nocturnal and Diurnal Emissions Nervous Irritability, Premature Decay, Loss of Vitality Impotency, and all diseases arising from early indiscretion

Thus excellent Remedy, discovered by the world renowned DR CULVERWELL, in London the most successful practitioner in his line for the last 30 years, is now for the first time offered to the afflicted in the fullest confidence of its extraordinary virtues Its salutary effect is almost instantly felt, and it will doubtless at once supersede all other means resorted to, medical, surgical or other wise, to arrest and to cure this awful disease A single trial will convince the most sceptical, that a safe and perfect cure may now be had at the expense of a few dollars which up to this date could not be procured for all the gold of the world The heavy expenses incurred in bringing this article before the public could not be risked were its superiority over every means hitherto employed for the same purpose not a sure guarantee that its employment by one person would through recommendation result in an eventual sale to many

DR CULVERWELL'S admirable and entirely novel plan of treating these diseases, is in the interest of humanity recommended to physicians throughout the land, to whom every facility will be afforded for testing its wonderful efficacy in their private practice

Full and plain directions for all the different varieties of the complaint accompany Dr Culverwell's REGENERATOR-REMEDY, so as to enable every one to treat himself or herself successfully Price $2, on the receipt of which it will be forwarded *by mail*, free of postage, to any part of the country Address, Messrs BRIDGMAN & CO, Druggists and Apothecaries, 108 Grand St, New York, Sole Agents for the United States and Canada

American & Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

(Late Agent of U S. Patent Office, Washington, under the Act of 1837.)

No. 76 State Street, opposite Kilby St., BOSTON

AFTER an extensive practice of upwards of twenty years continues to secure Patents in the United States, also, in Great Britain, France, and other foreign countries Caveats Specifications Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions, and legal or other advice rendered in all matters touching the same Copies of the claims of any Patent furnished by remitting One Dollar Assignments recorded at Washington

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY he would add that he has abundant reason to believe and can prove, that at no other office of the kind are the charges for professional services so moderate—The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the Unit on States and Europe render him able, beyond question to offer superior facilities for obtaining patents

All necessity of a journey to Washington, to procure a Patent, and the usual great delay there, are here saved inventors

Testimonials

"During the time I occupied the office of Commissioner of Patents R H EDDY Esq of Boston did business at the Patent Office as Solicitor for procuring Patents—There were few, if any, persons who stood as fair in that capacity who had so much business before the Patent Office and there were no others entitled with more skill fidelity and success I regard Mr EDDY as one of the best informed and most skilful Patent Solicitors in the United States and have no hesitation in so assuring inventors that they cannot employ a person more competent and trustworthy and more capable of putting their applications in a form calculated the most readily to favorable consideration at the Patent Office

To your inquiries I would reply that when I first commenced using the Professor Wood's Hair Restorative my hair was also white and had been for the last ten years and it was very thin on the top of my head and very loose and pulled out freely but I found that before I had used all three of the bottles (which was eight weeks) my hair was entirely changed to its original color light brown and is now free from dandruff and of the utmost I have had my hair cut five or six times since the change and have never seen anything like white hair starting from the roots and it is now as thick as ever was and doesn't come out at all It has proved in my case all that I could wish I ask Yours, etc—

WOOD'S HAIR DYE—This admirable article is rapidly improving the hair No article of a similar kind now before the public enjoys a better reputation as a restorative and invigorating hair tonic The peculiar chemical principles have a beneficial effect upon the growth and health of the hair giving a silky and glossy texture to that which was formerly of a coarse and dry nature It has also been understood a tendency to prevent the premature change of color which such results in addition to its hair preserving properties it is highly recommended as a delightfully perfumed article and will be found to be without an equal as an adjunct to their toilet
